

JASON NEWBY  
CHIEF OF POLICE

JAMES R. KNIGHT, JR.  
MAYOR

Dear Community Partners and Stakeholders,

The Hopkinsville Police Department is proud to support the critical services and emergency shelter provided by Sanctuary, Inc. Every day, our officers see firsthand the danger survivors encounter when escaping violent and unpredictable situations. Sanctuary, Inc. remains an essential partner in ensuring survivors have a safe, immediate place to turn.

A secure, well-protected location with reinforced infrastructure, a controlled entrance, private parking, and a confidential site is not simply an improvement; it is a necessity. These upgrades will significantly reduce safety risks during high-risk intakes, strengthen protections for survivors whose abusers may attempt to locate them, and enhance the safety of officers responding to emergencies. A more secure and modern facility will also allow Sanctuary, Inc. to continue meeting the needs of individuals seeking safety and support.

For these reasons, we strongly support Sanctuary, Inc.'s plans to relocate to a facility equipped with these important security measures. We encourage all partners and stakeholders to join us in advancing this critical step. When we invest in survivor safety, we strengthen the safety and resilience of our entire community.

Sincerely,

  
Chief Jason Newby, Unit 100
